

Granite Hills High School Medical Pathway

Community Service Form

“We make a living by what we do, but we make a life by what we give.” –Winston Churchill

You are a part of the medical pathway because you have some kind of interest in a health and/or medical careers. As much as any career interest/choice is important, it is just as important to develop an attitude of service. It is requirement for Granite Hills Medical Pathway students to complete 10 hours of community service per school year while taking Medical Biology and Medical Chemistry.

Guidelines:

- You must complete at least 10 hours of community service by **APRIL 29, 2016**. This will not affect your academic grade in your medical pathway courses, but it is required to complete the Medical Pathway.
- Your community service does not have to be health based. You can volunteer at a church, a nonprofit organization, a library, or even at school. If you have any question as to whether your planned community service is acceptable, please see Mr. Monge.
- Fill out the paperwork and make sure to have the contact information for the supervisor.

Medical Pathway Student Name _____

Location and/or Organization	Description of Activities (be specific)	Date	Hours	Supervisor's name, position, and contact information with signature.

Location and/or Organization	Description of Activities (be specific)	Date	Hours	Supervisor's name, position, and contact information with signature.

Please turn this community service sheet in to Mr. Monge by **April 29, 2016**.
