

The Emergence of Humans

Looking at the images provided in this evogram through the lens of the four fundamental aspects of evolution: time, variation, inheritance, and selection.

Time:

Divergent/convergent?

Coexistence:

When did we start talking?

Was technological development rapid?

Is a large brain important?

Why did modern humans leave Africa?

What happened to the Neanderthals?

Are we still evolving?

Variation:

Inheritance:

Speculate on how did this evolution happen?

Selection:
